

Journal of Multimedia Technology

VOLUME 1, NUMBER 2, December 2001

A study on Comparative Vehicle Tracking Scheme Based on the Background Image and the Feature Point	Dae-Ho Lee Young-Tae Park	3
Temperature Sensor Using Polarization Maintaining Fiber	Sang-Min Jeon Yong-Pyung Kim	11
A Region Segmentation Algorithm for Extracting Video Objects	Jin-Sang Kim	15
Performance Analysis of Adaptive Equalizers to Enhance DTV Receiving Performance	Young-Jun Yoon Won Sohn	20
Studies on Joint Source-Channel Coding According to Channel Environment	Jae-Ryun Lee Wee-Joon Park Won Sohn	26
Evaluation of the Effect of USTS on Cell Capacity	Woo-Kyoung Cho Een-Kee Hong	33
Design of a 1.9-GHz Band InGaP/GaAs HBT MMIC Power Amplifier	Kyu-Sung Chae Chang-Woo Kim	38
Feature Selection Based On Edge Direction Information for Automatic Image Mosaicing	Ok-Sam Chae Hoon Heo	43
Design and Implementation of Global Buffer Manager for SAN Shared File System	Dae-Ho Kim Byeong-Soo Jeong	49
Design and Implementation of Global Peer-to-Peer Engine Based on XML	Tai-Sook Kwon Sungyoung Lee	58
A Java-based Network Management Architecture Using Mobile Agents	Jung-Hwan Lee Choong-Seon Hong	70
An Architecture for CORBA and XML Integration that Use Web Application Server and SOAP	Ho-Seob Lee Choong-Seon Hong	77
A Study on a Bandwidth Management Scheme for Differentiated Internet Service ..	Hyun-Woong Nam In-Tae Ryoo	86
A Study on An End to End Security Technique in A WAP Gateway	Won-Chang Lee In-Tae Ryoo	94
