

Distinguished Lecture Series 11

Sungyoung Lee, Youngkoo Lee (Eds.)

Multimedia Technology

June 2005

Institute of Multimedia Technology
Kyung Hee University, Korea

11th Distinguished Lecture Series

(May 2005 ~ June 2005)

Volume 11

June 2005

Table of Contents

-
1. Architecture Modeling Using UML 2.0 1
*May 18, Room 302, College of Electronics and Information New Building, Taewoong Jeon, Ph. D.,
Dept. Computer Science, Korea University.*
 2. Knowledge Networks : Integrating Knowledge into the Web 31
*May 24, Room 445, College of Electronics and Information New Building, Minsoo Lee, Ph. D.,
Dept. Computer Science and Engineering, Ewha Womans Univeristy.*
 3. Middleware for Intelligent Distributed Processing in Ubiquitous Computing
Environment 51
*June 1, Room 445, College of Electronics and Information New Building, Hee Yong. Youn, Ph. D.,
Ubiquitous Computing Technology Research Institute, School of Information and Communications
Engineering, Sungkyunkwan University.*
 4. Design Automation for Embedded Processor 103
*June 3, Room 137, College of Electronics and Information Building, Yun Heung Paek, Ph. D.,
Software Optimizations & Restructuring Research Group, School of Electrical Engineering, Seoul
Nation University.*
 5. Semantic Web and Ontology 127
*June 7, Room 445, College of Electronics and Information Building, Joong Min Choi, Ph. D.,
Intelligent Systems Laboratory, Dept. of Computer Science and Engineering, Hanyang University.*
